

CLAIMS

1. Concentrate comprising an active substance from the group, which includes an algae oil, an essential oil, a terpene, phosphatidylserine, an ω 3 fatty acid, lanolin, a linoleic acid glyceride, citral or tea tree oil, and a surplus amount of a polysorbate, with at least two and half times the weight of the active substance.
2. Concentrate according to claim 1 in which the surplus is at least six times the weight of the active substance.
3. Concentrate according to claim 1 or 2 with glycerol content.
4. Concentrate according to claim 1 or 2 with ethanol content.
5. Concentrate according to one of the preceding claims, consisting of an active substance excepting essential oil, tea tree oil and citral, and polysorbate 80.
6. Concentrate according to claim 1 to 4, consisting of an essential oil or tea tree oil or citral and polysorbate 20.
7. Concentrate according to one of the claims 1 to 5, consisting of 160% w/w algae oil and 840% w/w polysorbate 80.
8. Concentrate according to one of the claims 1 to 5, consisting of 70% w/w of γ terpenes and 930% w/w of polysorbate 80.
9. Concentrate according to one of the claims 1 to 5, consisting of 50% w/w of lanolin and 950% w/w of polysorbate 80.

10. Concentrate according to one of the claims 1 to 5, consisting of 50% w/w of conjugated linoleic acid triglyceride and 950% w/w of polysorbate 80.
11. Concentrate according to one of the claims 1 to 5, consisting of 150% w/w of phosphatidylserine, 600% w/w of polysorbate 80 and 250% w/w of glycerol.
12. Concentrate according to one of the claims 1 to 5, consisting of 80% w/w of phosphatidylserine, 510% w/w of polysorbate 80 and 410% w/w of glycerol.
13. Concentrate according to one of the claims 1 to 4 or 6, consisting of 100% w/w of an essential oil containing orange oil and 900% w/w of polysorbate 20.
14. Concentrate according to one of the claims 1 to 4 or 6, in which the ratio by weight of essential oil to polysorbate 20 is set to up to 3:7.
15. Concentrate according to one of the claims 1 to 5, consisting of 210% w/w of a ω 3 fatty acid containing animal fat and 790% w/w of polysorbate 80.
16. Concentrate according to one of the claims 1 to 4 or 6, consisting of 300% w/w of tea tree oil and about 700% w/w of polysorbate 20.
17. Concentrate according to one of the claims 1 to 4 or 6, consisting of 430% w/w of polysorbate 20, about 70% w/w of citral and about 500% w/w of ethanol.
18. Concentrate according to one of the claims 1 to 4 or 6, consisting of 860% w/w of polysorbate 20 and about 140% w/w of citral.

19. Method for preparation of a concentrate according to one of the preceding claims, in which the active substance is mixed with a surplus of polysorbate 80 or polysorbate 20 with at least two and half times the weight of the active substance until a clear mixture is obtained.
20. Method according to 13, whereby surplus of at least six times is used.
21. Method according to claim 19 or 20, in which in order to accelerate the mixing process, the mixture is heated to a temperature of about 80°C to about 100°C.
22. Method according to claim 19 or 20, in which glycerol is added to the mixture.
23. Method according to claim 19 or 20, in which ethanol is added to the mixture.
24. Use of the concentrate according to one of the claims 1 to 13 as an additive to foodstuff, non-alcoholic drinks, cosmetics, pharmaceuticals or nutrient solutions.
